You must do this for each of the Stage apps you download.

Guided Access

Guided Access is an iOS function that allows users to modify their device settings. Teachers and administrators may use Guided Access to control which iPad functions and buttons are enabled or disabled for student use. For more information on accessing and using Guided Access, see the *iPad User Guide* available at www.apple.com.

Teacher Tip

Remind students with questions that they can take a screenshot on the iPad by holding down the home button and the on/off button at the same time. Screenshots can show teachers or administrators if there is a problem with the software or if a student has reached a milestone.
